

MAC ARTHUR HAS REACHED GINGUINTO

REPORT SHOWING CASUALTIES ABOUT MANILA.

Since February 4th, Not Including Yesterday's Report, Show 189 Killed and 896 Wounded—Believed That Good News Will Be Received from Malolos Within a Few Days.

Washington, March 30.—[Special]—Official reports show that casualties about Manila since February 4th, not including yesterday's, to be 189 killed and 896 wounded.

No word was received this morning from Gen. Otis, further than dispatch in which it was reported that MacArthur's advance, after severe fighting, reached Ginguinto. It is believed here that good news will be received from Malolos within a few hours.

Washington, March 30.—The following advices from Manila were received by the war department last night:

"Manila, March 30.—Adjutant-General, Washington: MacArthur advanced at 6 yesterday morning from Marilao. Passed rapidly to Bocave. At 11:45 took up advance for Bigaa, and at 3:15 in the afternoon for Ginguinto, three and one-half miles from Malolos, reaching that point at 5.

"Casualties for the day about seventy.

"Fierce fighting in the afternoon. Troops made crossing of river at Ginguinto by working artillery over the railroad bridge by hand and swimming mules against fierce resistance. Column will pass on railroad to the extreme front; nearly repaired and will supply troops today. OTIS."

Are Close to Malolos.

Manila, March 30.—Our troops are now encamped two and one-half miles from Malolos.

The army's advance Wednesday had covered more than two miles before any resistance was offered.

Insurgents have been found with their throats cut. This is taken to indicate that they were thus punished for refusing to fight.

It is now believed that the insurgents' faith in Aguinaldo is destroyed. Aguinaldo, with his family, is said to be preparing to flee from Malolos.

Gen. MacArthur is making ready an armored railroad car for further operations.

At 8 o'clock Wednesday morning the flying column, with the Third artillery and the Montana and Kansas volunteers on the left of the railroad and the Pennsylvania, South Dakota and Nebraska volunteers on the right, started to Bocave across two miles of open fields.

The insurgents began to fire immediately and continued until the troops reached the River Bocave. The American troops never wavered. The Nebraska regiment swung in from the extreme left and doubled up the insurgent left at the river.

The insurgents ran after some rails had been removed from the railroad.

Wounded insurgents reported that the enemy had retreated to Malolos.

In the Pennsylvania regiment there were one killed and five wounded. The Kansas regiment lost one officer and fifteen privates were wounded. In the Montana regiment, five men were wounded and in the Nebraska regiment one man was killed and ten wounded.

The American advance was wonderfully rapid, considering that the enemy destroyed the bridges as they fled. There was no resistance at Bigaa. The troops advanced quickly in contracted lines to the town of Ginguinto. The Pennsylvania regiment crossed the bridge as the advance guard.

Unexpectedly, the insurgents concealed in the woods ahead opened a heavy fire.

Then the Kansas regiment and one battalion of the South Dakota regiment rushed over the bridge under fire. Two of the Utah battery guns and one Colt rapid firer also came into action.

The insurgents had made trenches across the railroad. Our loss was several killed and more than twenty wounded before the insurgents were driven off.

Fighting on the 29th.

Manila, March 29.—At daylight Gen. MacArthur's division advanced from Marilao along the railroad to Bigaa, five miles distant, with the Nebraska, South Dakota and Pennsylvania regiments on the right and the Kansas and Montana regiments and the Third artillery on the left. Gen. Wheaton's brigade is in reserve.

The American forces met with strong opposition in the jungle. First one Nebraskan, then one Pennsylvanian, and afterward two men of the Montana regiment were killed. Thirty-five were wounded, including one officer of the Kansas regiment.

The rebels burned the villages as they retreated in bad order toward Malolos.

The enemy also tore up sections of the railroad in many places and attempted to burn the bridge at Bigaa, but the fire was extinguished owing to the timely arrival of the Americans. The rebels had not finished their trenches along the line of today's march, showing they were not prepared for our advance. It is believed

however that there will be a hard fight before Malolos is taken.

Swept Onward to Bocave. Manila, March 29.—The American army advanced at 6 o'clock this morning, sweeping onward three miles before 10 o'clock and driving the rebels beyond Bocave to the east of Bulacan and on the railroad leading to Malolos. Our troops met with but slight resistance. The Filipinos fired volleys yesterday evening for the purpose of drawing the American fire and disclosing the locality of our positions. Two men of the Pennsylvania regiment and one man belonging to the Dakota regiment were wounded. The Americans remained silent.

The country between Marilao and Manila presents a picture of desolation. Smoke is curling from hundreds of ash heaps, and the remains of trees and fences torn by shrapnel are to be seen everywhere. The general appearance of the country is as if it had been swept by a cyclone. The roads are strewn with furniture and clothing dropped in flight by the Filipinos. The only persons remaining behind are a few aged persons, too infirm to escape. They camp beside the ruins of the former homes and beg passers-by for any kind of assistance. The majority of them are living on the generosity of our soldiers, who give them portions of their rations. The dogs of the Filipinos cower in the bushes, still terrified and barking, while hundreds of pigs are to be seen searching for food.

Dead Filipinos in the River.

Bodies of dead Filipinos are stranded in the shallows of the river or are resting in the jungle, where they crawled to die, or were left in the wake of the hurriedly retreating army. These bodies give forth a horrible odor, but there is no time at present to bury them.

The inhabitants who fled from Marilao and Meycauayan left in such a panic that on the tables our soldiers found spread money and valuables, and in the rooms were trunks containing other property of value. This was the case in most of the houses deserted. They were not molested by our soldiers, but the Chinese, who slip in between the armies, are looting when they can, and have taken possession of several houses, over which they raise the Chinese flag, some of which were torn down.

NO CALL FOR VOLUNTEERS.

Those at Manila Can Be Held There and Most of Them Wish to Be.

Washington, March 30.—The most positive denials are given at the war department to the published statement that President McKinley has decided to call for the 35,000 volunteers authorized by the army reorganization act. Adj.-Gen. Corbin said today that there was absolutely no truth in the report.

As a matter of fact there is no necessity for enlisting volunteers for service in the Philippines, as the reorganization law authorizes the president to continue in service for six months the volunteer organizations now there, about 15,000 in number. In a dispatch received from Gen. Otis, about a week ago, he said that the volunteer organizations did not want to leave the Philippines while there was fighting for them to do, but he believed that the situation would be so much improved in three weeks that he could begin sending them home.

President McKinley has conferred on Gen. Otis the fullest powers in relation to the discharge of volunteer soldiers. He has been told that he may send home any organization or individuals without consulting the war department.

The government has not seen any necessity for organizing the volunteer army of 35,000 men. Some of the regiments recently mustered out have applied for re-entry into the volunteer service, among them the Two Hundred and Second New York.

President a Close Observer.

Washington, March 30.—The president Wednesday discussed with his advisers and callers the situation in the Philippines. Assistant Secretary of War, Merklejohn and Adj.-Gen. Corbin, who have kept close track of the progress of the American army and the condition of the troops, were with him for some time. With them he went over the situation and expressed his pleasure at the good progress Gen. Otis and his generals had made, though he regretted the loss of life.

Song Birds and Storms.

Here are some weather proverbs referring to song birds and storms: "When birds cease to sing, rain and thunder will follow. If birds in general pick their feathers, wash themselves and fly to their nests, expect rain. Parrots and canaries dress their feathers and are wakeful the evening before a storm. If the peacock cries when he goes to roost, and, indeed, much at any time, it is a sign of rain. Long and loud singing of robins in the morning denotes rain. Robins will perch on the topmost branches of trees and whistle when a storm is coming on."

A SUBSTITUTE FOR THE ANTI-PASS BILL

OFFERED BY SENATOR WHITEHEAD THIS MORNING.

Senate Passes Bill Providing For Manual Training Department in Ten or More High Schools—Bill Abolishing State Land Office Saved in Assembly—Executive Residence.

Madison, Wis., March 30.—[Special]—A substitute for the anti-pass bill was offered by Senator Whitehead in the senate this morning. The principal changes are that it prohibits the use of passes in attending political conventions and makes a violation of the law bribery, punishable by imprisonment by one to five years. It was laid over until evening.

A consideration of the resolution fixing the final adjournment April 14th, was laid over one week in the senate.

A bill providing for manual training departments in ten or more high schools at an additional annual cost of \$2,500, was passed over the adverse report of the claims committee.

The Roehr anti-lobby bill passed by a close vote, without any discussion.

Among bills killed was: McGillevray's familiar measure, requiring patent medicine bottles to have formula on label.

A bill for state tax commission, recommended in the governor's message, was introduced by the committee on assessment and collection of taxes.

The assembly passed the True marriage license bill without any discussion; also adopted a memorial to congress asking repeal of duty on hides.

The bill abolishing the state land office, was saved in the assembly by the introduction of a substitute, which cuts out three clerks, was then re-referred.

The best sugar bounty bill passed the assembly 67 to 20.

Vandercreek introduced a bill appropriating \$25,000 for a new executive residence.

Madison, Wis., March 30.—A sensation was created in the assembly Wednesday by an impassioned speech by Mr. Rusk of Chippewa Falls, son of the late Gov. Rusk, who said he had been improperly approached by a senator with reference to the bill to take the appointment of the water registrar of Milwaukee out of the hands of the mayor, who is a democrat, and put it in the hands of the board of public works, which is democratic. Other members demanded to know the senator's name, and Mr. Rusk finally said it was Senator Green of Milwaukee. A warm debate followed on the construction to be placed on Senator Green's words, who had intimated that the fate of Mr. Rusk's measures might depend on his vote on this. The bill was then passed.

The Orton bill for the taxation of life insurance companies went to third reading in the assembly. It is aimed especially at the Northwestern Mutual Life Insurance company of Milwaukee, which now pays but \$34,000 a year to the state, Judge Orton's bill increases the amount to about \$224,000.

The Harris' bill taxing all ice shipped out of the state by non-residents 10 cents a ton was passed by the senate. The bill providing for requiring railroads to make connections at junctions was also passed.

The day was a big appropriation day in the senate. Bills granting nearly \$250,000 additional to the usual appropriations went through on final passage. The largest of these was for \$151,000 for the university, of which \$100,000 is to be devoted to a new building for the college of engineering.

TWO MEN EXECUTED

James Reed, Colored, and Bates Soper Pay the Penalty For Their Crimes.

Kansas City, March 30.—[Special]—Two men were legally executed in this state today. James Reed, colored, was hanged here for murdering his sweetheart at Harrisonville, and Bates Soper was executed for murdering his wife and two children.

LOCAL TEACHERS ATTEND

Will Visit Whitewater This Week at Large Gathering.

Several of the local school teachers expect to attend the Southern Wisconsin Teachers' association which meets at Whitewater on Friday and Saturday of this week, March 31 and April 1. An attendance of 600 is expected, many from Rock county and vicinity. The president of the association is W. N. Parker, of Madison, and a number of Madisonians are on the program.

Prof. J. W. Stearn leads the discussion on "Defects in Our High Schools and Their Remedies" on Friday; and Miss Matilda Bailey, principal of the Second ward school, leads on "Preparing the Pupil for the High School." On Saturday, State Superintendent L. D. Harvey will talk on "The Present Status of the Institute." Prof. B. B. Dudgeon will also take part in the discussions.

The blonde type will have disappeared from Europe in two centuries, according to an English physician, who declares that of 100 blondes only fifty-five marry, while of 100 brunettes seventy-five marry. In Germany and Scandinavia also the blonde type is much less predominant than it used to be.

SAMOA SITUATION IS A CRITICAL ONE

REBELS MAY BE CONTROLLED BEFORE MANY DAYS.

Admiral Kautz and British Naval Commanders Confident—Matafafa to Be Put on Board a Warship When Captured—Fate Will Depend on Decision of the Powers.

Apia, Samoa, via England, March 30.—[Special]—The situation here is critical as these advices leave, but Admiral Kautz and the British naval commanders are confident that they can control the rebels before many days pass.

Matafafa will be put on board one of the warships here when captured. Fate will depend on the decision of the powers. He will in all probability be exiled.

Shedding of American and British blood by his followers will prevent him from ever again becoming the ruler of the islands.

Washington, March 30.—[Special]—The navy department posted the following this morning: The latest from Admiral Kautz states: "The situation is improving since my telegram of the eighteenth."

The Bombardment Continues.

Berlin March 20.—[Special]—An official dispatch from Apia, dated March 20th, says the bombardment continues. In pursuance of military orders the whites have evacuated many houses. The chiefs of the Tanus party, who were exiled to other islands were brought back from Upolu. Fire arms and ammunition taken from the Tanus January 2nd, were returned.

More Serious Than Indicated.

Washington, March 30.—[Special]—The strain at Samoa is believed to be more serious than indicated by official declarations on the subject. At the foreign office in Berlin and the state department here, the assertion is repeatedly made that there was a complete understanding that there would be a peaceful solution of the trouble.

The naval officers are closely watching developments, and there are other signs that the administration regards the condition of affairs of great importance.

Only Wanted a Coaling Station.

Auckland, N. Z., March 30.—[Special]—A report received here from the British warship Tauranga, now at the Friendly Islands, says that the Germans did not seek to seize the group as was reported, but only wanted a coaling station there.

Apia, Samoa, March 23, Via Auckland, N. Z., March 30.—The American admiral issued an ultimatum to Matafafa to withdraw his warriors from the municipality. The rebels defied the order and attacked the town in the direction of the British and American consulates. The American cruiser Philadelphia and the British ships Porpoise and Royalist opened fire on the distant villages.

Most of the inhabitants of Apia took refuge on the warships. Strong guards were posted ashore. Muliau was evacuated by Matafafa and fortified by the Americans. Two thousand Malietoa refugees were sheltered there. A defective shell from the Philadelphia burst near the American consulate, damaging the building and shattering the leg of an American marine.

The rebels at night crept upon the town and commenced a hot attack. They killed three British sailors. The following night an American marine sentry was killed. The American and British troops occupying the post of danger together during the night fighting displayed great bravery.

A bitter feeling exists against the Germans, who are suspected of supplying arms to the rebels. If the rebels come closer to the town they will be shelled. The admiral took a firm stand during the eight days preceding the bombardment. The native loss is unknown. They are encamped in a dense bush. Several villages have been fired.

THREE NATIONS MAY CLASH

Samoa, Outbreak Likely to Lead to More Serious Complications.

Washington, March 30.—No department of the government has any official information of the press dispatches from Samoa. Secretary Hay recently stated in the most positive terms that Admiral Kautz had no instructions to sustain the kingship of Malietoa, but was sent only to preserve order, and it is doubted whether he would proceed to order Matafafa to disperse his followers and open fire on him without some provocation not stated in the dispatch. If the news proves to be true a somewhat serious situation is created, concerning which the officials decline to speculate in advance of official news.

The crux of the whole matter is the part that Germany has played in the affair. Recently she has shown a desire to conciliate the United States, but there are still differences of opinion as to her entire good faith. The recent news that she had insisted on the recall of Chief Justice Chambers as a preliminary to the recall of her consul made a bad impression here. To remove a judge on account of a decision rendered by him, it is thought, would create a bad precedent and would encourage rebellions against any unpopular decision hereafter. The news that British and American sailors united in the fight is taken as

evidence that the right was on their side. When the two branches of Anglo-Saxon race go so far as to bombard native villages it is agreed that there must be good reason for their so doing.

There seems to be a feeling in government circles here that Germany is really working for a partition of the islands. These are of use mainly as coaling stations. Great Britain has comparatively little need of them.

To the Germans the value of a station there is immense, for their nearest possessions are the Solomon Islands, 2,000 miles to the west. The real interest of the United States is in the Philippine islands, though Samoa is far out of the direct route to that country. There is no question that the tripartite control of the islands has been accompanied with much friction and that affairs there need readjustment by the three powers acting in concert.

If things get too bad a partition or a war may be the only alternatives. It is thought at least possible that Germany may be willing to go very near to the latter in order to secure the former.

Coal Miners' Strike Is Ended.

Bloomington, Ill., March 30.—The strike of the Bloomington coal miners has ended after three weeks' duration. The coal company proposed to increase the scale 5 cents per ton and made various minor concessions. The proposition was at once accepted and the men voted to resume work. The strike affected 300 men.

BUILDINGS FOR BELOIT

Wm. B. Strong Will Erect Twelve Dwelling Houses—Clothing Store Closed.

Beloit, March 30.—Wm. B. Strong has decided to immediately erect twelve dwelling houses in his 3rd addition to the city of Beloit. Contracts have already been let for these structures, several of which will be ready for occupancy within 90 days. These houses will be located on Strong avenue and be nice residences in one of the pleasantest sections of the city.

Other residence buildings to go up in the near vicinity are now being arranged for, and before the summer is spent that part of our city will be compactly built upon.

The clothing store of Sam. Cohn on West Bridge street was closed last night by Herman Cohn of Chicago, who holds a claim of \$2,500 against the store. The stock is valued at about \$500.

Anxiety of Singers.

As an illustration of the constant anxiety of artists concerning their powers, Mrs. Sims Reeves tells how Jenny Lind refused to sit down at all on a day when she was going to sing. She would walk about the room, perhaps talking, perhaps singing, sometimes even busy with her needle and thread, but never sitting down until the performance was over. "Why," said Mrs. Reeves, "I remember well enough how one day, on the morning of a performance, Jenny Lind, Mr. Reeves, Otto Goldschmidt and myself were in the room, and through the morning Jenny Lind and my husband were never still, pacing one past the other, with music in hand, singing and practicing, and intent on the work before them."

"Why, Jenny," said Mr. Goldschmidt, "you must have sung those songs many times; surely there is no need for all this." But the remonstrance was in vain. "You are a fine musician," said Mrs. Goldschmidt, in her quiet, decisive manner to her husband, "but Mr. Reeves and I are singers, and we know what is best for us."—Pittsburg Dispatch.

Relic of the Glacial Period.

The supposed "corduroy road" of the glacial age, found at Amboy, O., has been examined by Professor G. Frederick Wright of Oberlin, O. He found a series of logs lying side by side, as in a corduroy road, and extending for a length of 200 feet and covered by about thirty feet of gravel, in which were the tooth and tusk of a mammoth; the tusk being 10 feet long by 22 inches in circumference at the base and weighing 155 pounds. But he decides that, while the resemblance to an artificial road is striking, the appearance of the logs showed that they were driftwood deposited during the closing centuries of the glacial period, when the water of Lake Erie was held at a level 150 feet higher than it is at present. The logs and base of the deposit are now about 140 feet above the lake level and four miles distant from the lake shore, on the banks of the Conneaut creek.

Glad, Anyhow.

"I beg your pardon. I thought this was Mr. Chucksley." "I am Mr. Chucksley." "Then I am glad to find that when I thought I was mistaken I was mistaken in thinking I was mistaken." "Hey!" "I say when I thought I was mistaken I was mistaken in thinking I was mistaken; and being mistaken in thinking I was mistaken when I wasn't mistaken, I was glad to find I was mistaken when I thought I was mistaken, because I wasn't mistaken—or, rather, I was mistaken when I thought I was mistaken; and so I couldn't have been mistaken—well, at any rate, I'm glad. Looks as if we were going to have snow, doesn't it?"—Chicago Tribune.

Bound to Have Her Way.

"What a sanguine disposition your wife has!" "Yes, she never lets up when she has decided what I ought to do."—Chicago Record.

THREE KNOWN DEAD MANY ARE MISSING

IN SINKING OF THE STEAMER ROWENA LEE.

Officers and Crew Worked Heroically—All Who Escaped Taken Off in Life Boats—Women Who Perished Would Have Been Saved had They Not Jumped in Their Fright.

Cairo, Ill., March 30.—[Special]—A telephone message received from Tiptonville, Tenn., says that the steamer Ora Lee arrived there from the scene of the wreck of Rowena Lee and reports that only four lives were lost in the accident. There were two women, a mail clerk and a deck hand.

Memphis, March 30.—[Special]—Late advices received here say that only three lives were lost in sinking of the Rowena Lee. The known dead are: Mrs. Chambers, Caruthersville, Me.; an unknown colored woman and George Kuechler, the mail clerk. Four persons are reported missing. The survivors are being brought here.

The officers and crew acted heroically and all who escaped were taken off in the life boats.

The women who perished would also have been saved, had they not jumped overboard in their fright.

The cause of the accident was a hidden obstruction, which the steamer struck just as she was backing out from the landing at Time Tyler.

She sank in midstream and the pilot house now is the only part of her now visible.

BURNED TO A CRISP

Child Sets Fire to a Barn While Playing with Matches, and Is Burned to a Crisp.

La Crosse, March 30.—[Special]—The five-year-old son of Mr. and Mrs. C. Martell was burned to a crisp in a barn here, the remains being taken out of the ashes. The child undoubtedly set fire to the barn while playing with matches. The loss on the barn and other property is \$2,000.

FORECAST OF WEATHER

Chicago, March 30.—[Special]—Forecast for Wisconsin:

Snow or rain tonight and Friday.

TROUBLE ABOUT SPARROWS.

Rumor That Bounties Have Been Falsely Claimed in Arcola.

The two-cent bounty for the heads of English sparrows is likely to get some of Arcola's ambitious hunters into trouble. The county has paid out within the past six weeks over \$300 to people residing in Arcola township for sparrow heads, and a universal cry of fraud is heard on every side. One individual received \$48 for 2,400 of the little feathered scamps, while no less than a half-dozen claims have been paid for 1,200 and 1,500 counts each. The lesser claims range all the way from 900 down to 100 heads, and the grand total of birds killed, according to the orders issued, and paid, is over 15,000. The general belief is that the heads of the genuine dead birds have been sold and resold, and that the county has been robbed systematically for some time. The number of birds purported to have been killed, as is shown on the clerk's books, is believed to be far in excess of the entire English sparrow family in the county. The matter is being freely discussed and public feeling is highly incensed at what is generally termed "wholesale robbery." An investigation has been called and it is believed the result will be most sensational, and that some of the officials will be found to have more than a passing interest in the matter.

The Sacred Fire of India.

The sacred fires of India have not all been extinguished. The most ancient which still exists was consecrated twelve centuries ago in commemoration of the voyage made by the Parsees when they emigrated from Persia to India. The fire is fed five times every twenty-four hours with sandal wood and other fragrant materials, combined with very dry fuel. This fire, in the village of Oodwada, near Bulsar, is visited by Parsees in large numbers during the months allotted to the presiding genius of fire.

Spurning \$100,000 a Year.

Says the London Christian Commonwealth: Fred Charrington's temperance badge costs him about \$20,000 a year. At least this is about the income he would have received had he succeeded to his father's business, instead of going over to the temperance ranks. The work which he organized twenty-four years ago in a tent meeting in Mile-end road, Bow, has grown steadily, till now he has, in the great assembly hall, "the largest mission hall in the world."

THE LATEST NEWS FROM BADGERDOM

BURGULARS OPERATE IN OSHKOSH IN FEMININE DRESS.

Man Arrested in La Crosse with Bad Money in His Pockets—Alleged Burglar Arrested at Beloit and Taken to Wautoma, Bound Over—Object to Insurance Tax Bill.

Oshkosh, Wis., March 30—A man, dressed as a woman, appeared at the residence of T. H. Quinn at 2 o'clock Tuesday morning. Mrs. Quinn, hearing someone attempting to get in, took a revolver, ready to shoot, and opened the door, and to her surprise saw apparently a woman, which caused her to change her mind. This person had a veil about the lower part of the face, completely covering the chin and mouth, and a woman's small hat tipped well over the face, while a pair of blue goggles completed the disguise. The man, for such it was, told a very improbable story as to his purpose in being there, then tucked his skirts up under his arms and started off as fast as he could run, and then it was seen that the marauder had on trousers under the women's cloths.

Is He a Counterfeiter?

La Crosse, Wis., March 30—The police this evening arrested an alleged maker of bogus money. His name is N. E. Jones, and his home at Winona. He had half a dozen counterfeit quarters, and place has so far been found where he got rid of two of them. They are good-looking coins, apparently made of a combination of tin and lead. He is a machinist, but the police think he has been working with a silver-plating outfit. He said somebody must have passed the bad money on him, and at once sent for a lawyer.

New Green Bay Military Company.

Green Bay, Wis., March 30—There will be a meeting in Knights of Pythias hall Friday night of the young men interested in the movement recently started to establish a military company in this city at which time it is expected a permanent organization of the company will be effected.

Fox River Valley Co. Will Not Build. Neenah, Wis., March 30—Supt. Holcomb of the Fox River Valley Electric Railway company today filed a letter with Mayor Stone, saying that the company would not build a road to Oshkosh at present, and will therefore not put up the \$5,000 forfeit money.

Honors For Dead Soldiers.

Eau Claire, Wis., March 30—At a meeting of former members of Co. E, tonight committees were appointed to make arrangements for honors to Corp. Bartlett and Private Bruce, whose bodies are to arrive here in a few days for burial.

Evidence in Sharp Case All In.

Fond du Lac, Wis., March 30—The evidence has all been introduced in the Rose A. Sharp case, and it is expected that it will go to the jury this afternoon or not later than Friday morning. The defense has denied each of the charges set forth in the complaint, and has offered witnesses who testified that she was home on the night that the carbolic acid was thrown which resulted in blinding Mr. Lynch.

Alleged Burglar Bound Over.

Wautoma, Wis., March 30—H. L. Hollister, alias Martin, who was arrested at Beloit last Tuesday and brought to this village, has been bound over to the April term of the circuit court, in default of \$1,000 bail. He is charged with burglary, committed at Plainfield five weeks ago.

Policy Holders Protest.

A PRIZE FIGHT AT KOSHKONONG SATURDAY BETWEEN CHARLES DEDRICK AND CARL SAGER.

Koshkonong, 30 March —A grand mill took place here last Saturday morning, between Charley Dedrick and Carl Sager, fourteen rounds by Queensberry rules, Jack Masterson as referee. Time, 29 minutes. They fought to a finish but called it a draw. Both pugilists are open for a challenge. Mrs. Hattie Huggott-Wixom, of Fulton, is visiting Mrs. Bird Bassett. Charles A. Lyon has the contract to drill a well for Dick Barnes, in his pasture near Lake Koshkonong, near the county lines of Dane, Jefferson and Rock counties. Frank Hudson, of North Lima, called on Bert Hudson, of Milton, Sunday. Eugene Hull was a Sunday visitor at George Bassett's. Mr. and Mrs. J. M. Marquart and son Paul, of Milton, were at Sunday school last Sunday. The Butter and Cheese association of Otter Creek, will meet April 3, at 7:30 p. m., to elect officers and transact such other business as may come before the meeting. Frank Jones has been engaged by C. E. Marquart for the coming eight months. Mrs. R. Brooks has so far recovered that she returned to her home the 25th inst., although not able to do much work.

"Have been almost insane with headaches, but found relief through 'Orange Inc.'"

REV. C. B. WILCOX HAS A CALL

Former Janesville Divine Takes Pastorate of Large Kansas City Church.

Rev. C. B. Wilcox, for three years pastor of Court Street M. E. church, has been called from La. Fayette, Ind., to the pulpit of the Grand Avenue Methodist church in Kansas City. The La Fayette Courier says: "All La Fayette should rejoice over the fact that Dr. Wilcox has been called to such a high position and no one will begrudge him of the honor that has been won so arduously. Arduously is the word, for no man has ever struggled from the bottom to the top as has Charles D. Wilcox. He has won his way and he deserves the success that crowns his efforts. Many a day will pass before his pulpit here can be as acceptably filled and there is genuine sorrow in the congregation from which he reluctantly departs. The new field into which he goes is larger, his congregation over 1,000 strong, the salary \$3,600 a year and his church a model of elegance. The Grand Avenue church is unencumbered and is valued at \$125,000, certainly a pleasant field in which to work. His wife's continued ill health also offers an extra inducement to leave La Fayette. She must have a change of climate, for she has been subject to malaria ever since coming to La Fayette."

GAVE ENTIRE SATISFACTION

Madison, Paper Praises Show That Is Coming Here

The "What Happened to Jones" company appeared in Madison, Tuesday night and the Madison Democrat says: "By far the jolliest thing that has delighted Madison theatre-goers this year appeared at the Fuller last night. What Happened to Jones is a ten-act play in the field of farce comedy, sparkling with the brightest kind of fun imaginable. The audience was kept in a roar of laughter until the curtain dropped, as situation after situation gradually developed a climax of the ludicrous. It is difficult to conceive of a better continuous run of clear but racy amusement than is furnished in What Happened to Jones, and hard to think of a much better production than was given by the company of Broadhurst's that presented it last night."

London and Return, 40 Minutes.

One day last week, at the Waldorf, Astoria Mr. Charles L. Bartlett of Chicago, on his way to breakfast, handed to the hotel operator of "The Postal Telegraph Cable Co." the following message:

"Mrs. Henry M. Stanley, 2 Richmond Terrace, S. W., London, England:—May I publish your letter?"

"Bartlett, Waldorf-Astoria."

"On his way out from breakfast, forty minutes later, the operator handed him this reply:

"Bartlett, Waldorf-Astoria:—Certainly."

"Mrs. Stanley."

We publish below the letter referred to:

"2 Richmond Terrace, Whitehall, S. W., Feb. 22, 1899—Dear Mr. Bartlett: I am so much obliged to you for writing and sending me the dainty cards. The Orange powder I think are wonderful. I do not believe in constantly taking any medicine, but I should not like ever to be without Orangeine, for an emergency, such as having a severe headache, a feeling tired out. Orangeine should be known in England as well as America. I wish the powders could be got in England, but I am glad they are to be had, even though I have to send all the way to Chicago. I herewith inclose 15 shillings, the equivalent, I believe, of \$3.75. Will you kindly send me some more packets?"

"When you write to Mr. Wm. Gillette pray tell him how very much obliged to him we are for introducing us to 'Orangeine.'"

"Believe me yours sincerely,

"(Signed) DOROTHY STANLEY."

ENGAGE IN LIVERY BUSINESS

Will Davis Will Look After Sight Seers at Colorado Springs.

Will Davis and family, who have for many years made Janesville their home, left this morning for Colorado Springs, Colorado, where they intend to reside.

Mr. Davis will engage in the livery business there, and will endeavor to look after the thousands of tourists who annually visit this well known summer resort. It is said to be one of the best livery towns in the country.

Mr. Davis has been in the livery business in Janesville nearly nineteen years. His many associates regret his departure, but extend to him and his family the best of fortune.

New Rival For Prism Lights

Details of an invention of much value are given by Erwin, Wheeler & Wheeler, the Milwaukee patent attorneys. It is a device that accomplishes the same results as the Luxor Prism and can be sold at much less cost. The prism lights are now being rapidly introduced in Chicago and other large cities, we find that where the average cost of light was heretofore from \$150.00 to \$300.00 per year, it has been reduced to \$50.00 and \$60.00 a year, while the light therefrom is more natural and less trying to the eyes.

Commencement Stationery

Beautiful samples of commencement cards, in invitations, programmes and diplomas for 1899, have been received at the Gazette Job Rooms. We have special facilities for caring for large engraving orders.

FRANK S. BAINES MAKES LARGE SALE

SELLS SEVEN HUNDRED CASES OF TOBACCO.

Shipment Was Disposed of to Edgerton Parties Who Are Buying for an Eastern Firm—Local Market Remains Firm and Buyers Are Active These Days.

Frank S. Baines, of this city, reports the sale of 200 cases '93 'B's' and 500 cases of '97 to a representative of an Eastern firm.

This is one of the largest single sales that has been made in some time by a local firm. The price is said to have been a good one.

The buying of the '98 tobacco crop is fast drawing to a close. Dealers are still traveling about the growing districts in search of unsold lots, but in many sections the crop is entirely cleaned up and trading will soon cease altogether until another year's crop is ready for market. Prices on late transactions are remarkably well maintained, with the closing sales above those paid for the average of the crop. A few of the packers who began early to handle the crop are finishing the work of the season, but the majority of them will continue warehouse handling for several weeks yet.

Business in old leaf is improving and transactions among local packers, frequently at prices, too, that are quite satisfactory. Well cured fillers or "shorts" are in excellent demand and ready sellers.

WOODMEN TO GO VISITING

Will Go to Evansville This Evening—Initiation in Order

A large delegation from Florence Camp No. 366, Modern Woodmen of America, will go to Evansville this evening to assist the Evansville camp in the initiation of the two hundredth member, which is to be followed by a banquet.

The train will leave at 7:45 tonight over the Chicago & Northwestern road and a reduced rate of fare has been secured. If a sufficiently large delegation attends a special train will be sent up to bring them home after the festivities are over.

RESUME FOREST PARK LINE

Street Car Traffic There Will Be Commenced Next Week

The Forest Park branch, on the street car line on which has been suspended traffic this winter, will again be put in operation.

George Hurd of Toledo, who will assume charge of the local road on next Saturday, will see to it that traffic on the Forest Park line will be resumed as soon as possible.

During the summer months, this part of the line is liberally patronized, but in the winter it is not on a paying basis.

WORKMAN TAKEN WITH FIT

Patrol Called but the Workman Preferred to Walk

An employ at the local Chicago, Milwaukee & St. Paul round house had a fit this morning and the patrol made a hurried trip to the depot to care for what the police thought to be some one injured by the cars. When the patrol arrived the man was in the hands of friends who thought that the services of the fire police were not necessary and the wagon returned empty.

Her One Regret.

The pensioned off "faithful nurse" in an aristocratic family took a mournful pleasure in keeping the "in memoriam" cards which were from time to time sent her. On one occasion "the daughter of the house," visiting the old lady's cottage, noticed the collection so ostentatiously displayed. "Ah, yes, miss, I keep 'em all," said the aged nurse. "I've got your poor pa's, and your sainted ma's, and your brother William's, and your sister Carrie's, and if I only had yours, I think I could die 'appy!"—London Chronicle.

The Harp of Brian Born.

What professes to be the original harp of Brian Born is preserved in the library of Trinity college, Dublin; but its history, which is now more clearly traced does not bear out the popular tradition as to its origin. It belonged, probably, to the illustrious sept of O'Neill, and was, in all likelihood, made for one of the two noted prelates of that name. It is a curious fact that it was last played on by one of that family; though at that time its real origin was not suspected; for the eminent Arthur O'Neill woke its slumbering music at Limerick in 1760, and it has ever since remained silent.

Novelty in City Charters.

The new city charter of Melrose, Mass., as approved by the house of representatives, contains the novel provision that no vote of the alderman granting a franchise shall be valid unless it shall be approved by a vote of the citizens. This provision was thrown out by the committee on cities as being something which no other city had and as altogether too radical, but it was restored by the house on the representation that it was the unanimous wish of the citizens of Melrose.

LARGEST NUMBER OF DEATHS

Janesville Mortuary Record Was Broken Last Month.

Sexton Scott, who has charge of Oak Hill cemetery since August, 1868, says that more bodies were interred there last month than during any one month since he has been in charge.

The number reached twenty-two. The present month will likely surpass this there having already been nineteen burials and three bodies now await interment.

The majority of the deaths in Janesville this winter have been elderly persons stricken with the grip.

Attention Masons.

"Happy is He That Chastens Himself."

Self chastening once meant that the body was to be disregarded, despised and even injured. Today it means that it is to be cared for and protected, made "beautiful, entire and clean." To do this, the messenger that visits every part of the body must be able to furnish good material to the organs under his care and supervision.

This messenger is blood, that wonderful life giver. If you want to protect yourself and want your blood to be quick and active, cleanse it of impurities. Hood's Sarsaparilla does that to perfection, and it is unfailing. Nature seems to have set this remedy apart to make the blood pure.

Debility—"I was weak, run down and nervous. Severe pains in kidneys, with heart trouble. Hood's Sarsaparilla made me strong and new. It is an honest medicine." CHARLES HENDRICKS, 314 1/2 W. Main Street, Amsterdam, New York.

Dyspepsia—"Suffered everything but death for years with dyspepsia. Nothing relieved me until I took Hood's Sarsaparilla and it made and kept me well. Can eat anything I wish." Mrs. EUGENE MURPHY, Hull's Mill, Danbury, Conn.

Eczema—"We had to tie the hands of our two year old son on account of eczema on face and limbs. No medicine even helped until we used Hood's Sarsaparilla, which soon cured." Mrs. A. VAN WYCK, 123 Montgomery Street, Paterson, N. J.

Rheumatism—"Inflammatory rheumatism was suffering so that I could not sleep or walk. Had no appetite and medicine seemed useless. Finally used Hood's Sarsaparilla which took away all pain." Mrs. STELLA NORRIS, Marion, Ohio.

Nervousness—"I was weak, nervous and very delicate, staggered in attempting to walk. Hood's Sarsaparilla and Hood's Pills made me well. I feel like another person." Mrs. LIZZIE TREMBERT, Conduit Street, Ext., Annapolis, Md.

MR. THOROUGHGOOD'S MIS-TAKE.

Candidate Thoroughgood made a serious mistake when he wrote the letter published in The Recorder over his signature. Even his friends condemn the action. They say Mr. Thoroughgood should not have opened the campaign by publishing a letter intended to reflect in any way upon his opponent—which was the very evident purpose of the letter, although in no way did the communication have that effect. The reverse was the rule; and it has proved a boomerang. It is true that Mr. Richardson has had a "military education," for instance, but Candidate Thoroughgood did himself no good when he sought to slur Mr. Richardson because of the fact that he had attended West Point academy.

Mr. Richardson is making a clean canvas. He is indulging in no personalities. The fact that Mr. Thoroughgood did not observe the same rule is costing him votes. In publishing the letter mentioned Mr. Thoroughgood has made his statements issues of this campaign, and they are proper subjects for comment by Mr. Richardson's friends. Hence Mr. Thoroughgood cannot complain if sharp things are said of his manifesto. He published it to aid his own interests, and if it reacts, he has only himself to blame.

ACCEPTED HOBSON'S CHOICE

In his signed statement published in Sunday's Recorder, Mayor Thoroughgood says:

"At the urgent request of my friends I placed myself in the hands of my fellow citizens IRRESPECTIVE OF WHETHER THEY WERE DEMOCRATS OR REPUBLICANS. Such was my declaration, which CANNOT BE CONSTRUED AS A PARTY CANDIDATE."

What are we to understand from this? Did Mayor Thoroughgood propose to accept either nomination that he could get? And if he was ready to accept the republican nomination if he could have secured it, what claim has he on the democratic party, whose nomination must have therefore only been accepted because he couldn't get the republican nomination?

We should be glad to be set right on this matter if we have received a wrong impression, but it would appear, plainly enough, it would seem, that the democratic nomination was accepted by the mayor only because the republican leadership could not be secured.

WORK FOR THE CAUSE.

Let no opportunity pass to secure a vote for the republican ticket. Show the people of the state that Janesville is now a stronger republican city than it ever was before. Rock county gives a larger republican plurality, according to population, than any other Wisconsin county. Janesville should therefore head the list of cities of her size. This distinction is worth having, and all republicans should work for it. It will take very little of your time, Mr. Voter, to call on a few of your friends who may

not have their minds made up, and labor for the cause. Every good word counts, so do your party duty, and you will read of the result on Tuesday morning with an unusual amount of satisfaction.

The Recorder says The Gazette has characterized the Twilight club as a republican organization. The Gazette had said nothing of the kind, but of course that fact had no bearing on the case so far as The Recorder was concerned. The Recorder has so many "editors" these days, that they cannot be expected to keep track of each other's statements. Hence, if the articles conflict, or are somewhat "pseudo-morphous," so to speak, do not lay it up against anyone in particular, for when you see it in The Recorder it is invariably written by some one who is not connected with the paper.

The election of N. Frederick as street commissioner is greatly to be desired. His democratic opponent is the proprietor of the quarry from which the city has been supplied with stone for street works. Many people have complained of the use of this stone, on the ground that it was not suitable material for the work, yet Mr. Milwaukee can hardly be expected to make a very vigorous protest against its use, whether he is street commissioner or a private individual.

Everyone admires W. B. Stoddard's plain spoken way, and rugged honesty. Voters of the Second ward know him well and fully recognize his ability and will certainly avail themselves of the opportunity to elect him as a member of the common council.

And when the editor of The Recorder came to the words "the pseudo editor of The Gazette" in the editorial that had been furnished him by the gentleman who is not employed by The Recorder, he—well, what did he do?

And the fact that some of the democratic organ's ideas are pseudomorphosed, in some degree—like the horse chestnut, for instance—may also be explained by the fact that "too many cooks spoil the broth."

Even "our friends the enemy" admit Victor P. Richardson's eminent qualifications for the office of mayor. Vote for Mr. Richardson and the best public service.

Election day falls on Tuesday, April 4. The time is short, republicans, so do not put off until tomorrow what you can do today. Work for the ticket!

And it is also fair to assume that The Recorder may be in a pseudohypertrophic condition—with the evidences most marked in the region of the head.

However, The Recorder may still find comfort in the reflection that the Whitelight club is a democratic organization.

Vote the straight republican ticket, and you will have done your full duty. Get out the whole vote, and roll up big majorities.

Retailers' War on Department Shops.

The retail dealers of Chicago are now organized to fight department stores. The temporary association of retailers has been made permanent and hundreds of new names are enrolled. There are 50,000 retailers in the city and they employ 125,000 clerks. The plan now is to get every retailer and his clerks to agree to buy goods only from members of the association.

HAS HER BROTHER'S COURAGE

Lieut. Hobson's sister, Miss Annie, has proved herself a heroine by the

MISS ANNIE HOBSON.

way in which she stuck to the back of a runaway horse at Jackson, Miss., one day last week. Miss Hobson, who is visiting kinsfolk in the vicinity mentioned, had mounted a fiery Kentucky thoroughbred for a dash across the country, when the animal bolted with the bit between his teeth. The plucky girl stuck to her seat and sawed at the reins, while the animal turned corners that would have unseated an ordinary horsewoman. The horse, after running several blocks, was finally brought to a stop, with Miss Hobson none the worse for her experience.

Now that Mr. Bryan has elevated Moses as an authority, Bob Ingersoll will be likely to point out some of his mistakes.

EASTER FOOTWEAR

What Will Be Proper in Shoes the First Day of Spring Dress.

People who have been wondering what to buy for new shoes that they expect to put on with the new dress next Sunday could have the doubt settled in their mind by merely looking at the new shoes for both men and women displayed in the show window at the C. C. Bennett Shoe store. To start with the window is tastefully decorated in blue and white, set off with palms and pretty vines and a handsome bunch of Easter lilies. This, of course, shows the new shoes to advantage, but without doubt the lines we carry in stock this spring are more attractive from every point than for a good many years past. One shoe that is interesting the ladies is a patent leather with a soft black kid top and a French Louis heel. This same shoe is made all kid and they both have a very pretty coin toe. There are other hand some shoes in blacks and a great many in the new chocolate colors, both light and dark. The shades will predominate through the coming season. Some of the shoes have silk veering cloth tops and some of them have the new English coin toe made on that new manish last or exactly as a man's shoe is made. One of the handsomest oxfords ever brought to the city is seen in this window. It is a two button light chocolate color and is already favored with the comments of dressy ladies. The Blocher cut shoes for men in tan are coming back again with a rush and undoubtedly will be worn much this summer. Light tan low shoes for men will also be popular in various shades and colors. These shoes come in all widths of toes and are to be seen in the new window. A particularly dressy shoe with nickel hooks and eyelets of box calf leather, a new tannage which has a beautiful smooth surface, will be conspicuous in the sale of the Bennett store this year. You can also see this shown in the window. There will be no dress but that can secure shoes of the proper shade to blend beautifully for next Sunday's wear from this stock.

NEWS OF PERSONAL NATURE.

Nothing of the Kind.

If vegetables were the natural and only authorized food of man, the islands of Great Britain and Ireland would not yet be inhabited. The vegetarian seems to imagine that the succulent cabbages, lettuce and apples, likewise the corn and wheat, upon which he regales himself, are indigenous to English soil. They are nothing of the kind. No pioneer of the western Aryan migration could have found any of these articles of diet in England. He would have discovered nothing eatable except a few crabapples, which would have been insufficient to support life. In fact, the first vegetarian settlers in Great Britain, whoever they may have been, must have died of starvation had they not accepted a meat diet.

PERSONALS.

Stephen Phillips, the poet, is nursing a broken leg in a London hospital.

Miss Caroline Hazard, the new president of Wellesley college, is herself not a college graduate. She is 42 years old.

Mrs. Thomas C. Platt is described as a most unostentatious woman, tall, matronly, with dark hair, verging on gray. She wears little jewelry, though she is the owner of some famous diamonds.

Joshua Reed of Burlington, Vt., will be 98 years old April 4, and has lived in the same house for sixty-five years. The place was built over 200 years ago, and was, in olden times, a garri son against Indians. In the walls are holes, long since covered with boards through which settlers used to fire at red-skinned marauders.

After the death of the poet Conrad Ferdinand Meyer in Zurich, it was found that his property, which he had said amounted to 1,377,000 francs, was worth a great deal more. There is a law in Switzerland that if a man underrates his possessions, the state is entitled to one-half the sum not confessed to.

Miss Kingsley, the explorer, was once the recipient of an uncomfortable present. It consisted of a consignment of 300 husbands, the gift of a savage chief. To refuse such a delicate attention without giving offense was one of the most embarrassing problems Miss Kingsley has ever been called upon to solve.

Why Chinamen Eat Rats.

The Lahore (India) Tribune quotes a Chinaman's explanation of the use of rats for food purposes as follows: "What carrot is to a horse's coat a rat is to the human hair. Neither fact can be explained, but every horseman knows that a regimen of carrots will make his stud smooth and lustrous as velvet, and the Chinese, especially the women, know that rats used as food will stop the falling out of hair and make the locks soft, silky and beautiful. I have seen it tried many times."

ANOTHER PIONEER HAS PASSED AWAY

DR. OLIVER P. ROBINSON JOINS
THE GREAT MAJORITY.

The Well Known Physician and Pioneer Died Last Evening—Resident of Janesville for More Than Half a Century—David Jameson Closed His Eyes To Awake No More.

Last evening another of Janesville's old and well known pioneers closed his eyes to awake no more in this dream and joined the great majority in the unknown beyond. In the passing away of this pioneer, Janesville loses a respected citizen in the person of Dr. Oliver P. Robinson.

The departed one closed his eyes to material things at 7 o'clock last evening at No. 268 South Main street. Although unable to carry on any conversation, he was conscious to the last and recognized those about him and was Dr. Robinson had been in poor health and for years had been afflicted with kidney trouble, which, together with the infirmities of age, was the cause of his death. Several years ago, owing to failing health, he was obliged to give up his medical practice and later took up his home with his son-in-law.

Oliver P. Robinson was born in Elizabeth, New Jersey, June 12, 1812, and he was therefore in the eighty-seventh year of his age at the time of his death. He was born of English parentage and came from excellent stock. He studied to be a physician and passed a creditable examination, as he was a great student. He located in Texas, where he resided for three years prior to his coming to Wisconsin. In April of 1846 he came to Milwaukee, but he did not linger long in the Cream city. In November of that year he came to Janesville with his wife and continued the practice of medicine until his advanced years compelled him to give up active pursuits. Dr. Robinson was a staunch democrat, politically, and represented the Fourth ward in the common council of Janesville for fourteen years. He was elected president of the council in 1873. He was county physician and health officer of the city of Janesville for a number of years.

In August, 1841, he was united in marriage to Clara B. Reynolds, of New York city, who has been his faithful partner for fifty-eight years.

During the many years that Dr. Robinson has resided here he has been a most familiar and respected personage. He possessed a kind disposition and always had a pleasant word. He was a student and found much pleasure in books.

On all occasions he was true to his friends. During his long sojourn in the Bower city, he witnessed its progress and saw it grow from a mere hamlet to a thriving city. His life has been an eventful one and during his eighty-seven years of earthly pilgrimage, he has witnessed many changes.

Besides a widow, he leaves one adopted child, Mrs. Charles T. Pearce, of this city.

The funeral services will be held tomorrow afternoon at 3:30 at Trinity church, Rev. Marvon officiating, and the remains will be tenderly laid to rest in Oak Hill cemetery. After the remains leave the church, the services will be in charge of Wisconsin Lodge No. 55, F. and A. M.

Newbury S. James.

After a long and painful illness, Newbury James entered into rest this morning. He was the only son of S. L. James, and his death occurred at the family home, 201 South Jackson street.

Mr. James was forty-eight years and four months of age. For twenty-three years he was connected with the accounting department of the Western News Co., enjoying in a high degree the confidence and esteem of John R. Walsh, president of that concern. His straightforward and business-like manner pleased Mr. Walsh from the first and led to speedy advancement. Mr. James was head booker for the Western News Co. at the time his health failed six years ago. Unmistakable signs of consumption developed, and two years in Texas and Mexico did not check the malady. Two years ago the sufferer returned to Janesville, convinced that the end was only a matter of months. He bore himself bravely and uncomplainingly and met death with manly fortitude.

Funeral services will be held from the home, No. 201 South Jackson street, Saturday morning at 10 o'clock.

Mrs. Louis Gilbertson

The funeral of Mrs. Louis Gilbertson was held from the home on South Jackson street this afternoon at 2 o'clock and there were services in the Norwegian Lutheran church at 2:30. The interment was in Oak Hill.

Mrs. Gilbertson was a woman of strong characteristics and sterling worth. She was sincere and frank and the sorrow of many friends over her departure was expressed at the funeral by offerings of flowers. The services were largely attended.

David Jameson.

Yesterday morning, David Jameson joined the great majority on the other shore. He passed away at the home of his daughter, Louise Beaumont, on Eastern avenue, about 9 o'clock. Mr. Jameson was about seventy-five years of age. Funeral will be held Friday, and the interment will be in the cemetery at Emerald Grove.

Thomas Welsh.

Thomas Welsh died at the home of his parents, Mr. and Mrs. Patrick Welsh, of Milton Junction, Wednesday, at 1:30 p. m., aged thirty-nine years. His funeral will be held at Milton Junction, Friday, at 10:30 a. m. Interment in Mount Olivet cemetery.

MORUE A LA CREME.—Take fresh codfish to make four or six small portions, gutted and rolled in cracker dust. Grate a thin slice of onion into a well buttered griddle. Stir into a cup of milk half a spoonful of salt, a spoonful of white pepper and add a walnut of butter to the bottom of the griddle. Toasted bread then put in the fish and pour above the seasoned milk. If it does not reach above the level of the fish, pour in sufficient milk to do so. Cover and bake in brick oven 20 minutes. Take out, moisten the top with its own milk, dust with cracker dust and a walnut of butter put small squares in the oven for ten minutes to toast. It will be a creamy mass. Serve warm, not hot.

"Who is Who" will be thoroughly explained by the Kelly & Mason Co. of twenty-two artists at Myers' Grand opera house, Thursday, April 6. Music, song and dance is one of the principal factors to make the existing question clear, a fact which will undoubtedly be relished by all those who attend.

DURING the past year many new patterns in solid silver spoons have been made. Those who always have a solid silver teaspoon for an Easter remembrance will find all the latest and prettiest patterns at Hall, Sayles & Fifeild, "the reliable jewelers."

WHEN you find a merchant of mature age and experience who tells you he is selling his entire stock one-third off regular price, you are led to believe, you are bound to believe, that either his original prices were very much too high or that his discount is fictitious. Which will you believe? The only other contingency, that of offering his entire stock below cost, is hardly worth considering. Have you seen the ladies' shoes we have been selling at \$2.50? Now they are going at \$1.95. F. L. Quatsoe, advertiser of facts.

POOL SELLING BILL BEFORE ASSEMBLY

PETITIONS FROM LOCAL SIGNERS PRESENTED.

Assemblyman W. G. Wheeler of Janesville, Spoke of the Bill—Others Opposed It, Giving Their Reasons—Matter of Considerable Interest to the Bower City.

At Madison yesterday the question whether it was necessary to have gambling apparatuses and pool room paraphernalia on the grounds of agricultural societies in order to insure good tests of speed among horses, was up for discussion before the committee on state affairs of the assembly. The committee had under consideration the Wheeler bill, to allow twenty days a year, pool selling on horse races. There was a long hearing, the entire afternoon being taken up. No action on the bill was taken.

Assemblyman Wheeler, of Janesville, D. B. Barnes, of Delavan, and George Prossman, of Ashland, spoke of the bill. It was opposed by C. B. Willis, secretary of the Milwaukee Y. M. C. A., the Rev. W. J. McKay, of Madison, and Assemblyman George Wylie, the author of the Anti-Pool Selling law of two years ago. The discussion was begun by Mr. Wheeler. He said the purpose of the bill was to protect the men who had invested their money in breeding horses and whose business was seriously impaired by the legislation of two years ago. Mr. Wheeler said he had petitions signed by nearly every business man in Janesville. On some of the petitions were the names of Sunday school superintendents. It was Mr. Wheeler's opinion that a large majority of the people of the state favored legislation along the lines proposed.

An extended argument for the bill was made by Mr. Roseman. He appeared, he said, as the representative of many of the agricultural societies of Northern Wisconsin.

Mr. Barnes followed Mr. Roseman. He said the people of Walworth county were not afraid of having their morals corrupted by the selling of a few race horse pools. He knew that the county fairs had not been as successful as before the Wylie law went into effect.

The bill was opposed by Mr. Wylie. He said that at first blush it looked like a reaction of the old Indiana game.

Mr. Willis said the bill involved more than horses; it involved 300,000 young men of Wisconsin. Mr. Willis said the principle was wrong. If the door was once opened to pool selling for a limited number of days, the end could not be foreseen. The whole vicious evil would come back.

The Rev. Mr. McKay, who followed Mr. Willis, spoke along the same lines. It is said that if the bill passes, a most important race meet will be held in Janesville this summer.

M'COURT DEFIES ANY LYNCHING MOB

ABLE TO LOOK AFTER HIMSELF IF ATTACKED.

Jefferson County Prisoner Left Janesville This Morning for Fort Atkinson, Where Hearing Was Held Today—Wants Liberty, if Surrounded by Crowd Bent on Hanging

George McCourt, the Jefferson county prisoner, who was brought to Janesville a week ago and placed in the Rock county jail for fear of mob violence, was taken to Fort Atkinson this morning on the 7 o'clock train.

Today he appeared in a justice court there, for a hearing and was held for trial.

The prisoner on leaving the jail this morning was in charge of the Jefferson county sheriff, who saw to it that a pair of steel bracelets were securely fastened about his wrists.

McCourt acted cool and looked not like a person charged with such a terrible crime.

He said that he feared no mob violence on reaching Fort Atkinson, but if surrounded by an angry mob, he hoped that the sheriff would free his hands and he would be fully capable of looking after himself.

In all probability McCourt will soon be returned to the Jefferson county jail as it is said that matters relating to lynching talk have quieted down there during the past week.

McCourt resided on a farm near Londonderry and the trouble seemed to have originated over a right of way belonging to McCourt, which led through the farm. McCourt, assisted by his son, was hauling hay along the right of way, but owing to the fact that the road was soft and muddy he drove out a little on the Roehl meadow, where it was easier for the horses. The Roehl brothers were chopping wood near by and they requested McCourt not to drive on their meadow. A quarrel followed, during which McCourt struck the Roehl boys on the head with an axe, killing one outright and wounding the other so badly that he is not expected to survive.

If you want an individual style in pattern of shirt waists for this spring's wear, something that cannot be bought from any store in the city outside of ours, be sure to see those new French crepons we are now showing. They are regular 25 cent goods but our cash plan of doing business enables us to sell them at 18 cents a yard. Bort, Bailey & Co.

LINCOLN WON SUCCESS.

Interesting Story of an Early Victory at the Bar.

A suit was brought in the United States court in Springfield against a citizen for an infringement of a patent right. Mr. Lincoln was employed to defend it. Mr. Lincoln went to the most skilled architect in the city, inquired how he spent his winter evenings, and received the reply: "If times are brisk I sometimes work; other times I have no special business." Mr. Lincoln said: "I have a patent-right case in court; I want you as a partner, and will divide fees. I know nothing about mechanics—never made it a study. I want you to make a list of the best works on mechanism, as I don't suppose they can be purchased here. I will furnish the money and you can send to Chicago or New York for them. I want you to come to my house one night each week and give me instruction." In a short time he had witnesses to meet him, and they were thoroughly drilled. When the trial commenced Mr. Lincoln put his questions at the cross-examinations so scientifically that many witnesses were bothered to reply. When his witnesses were put on the stand, so skillful were his questions that the court, the jury, and the bar all wondered how "Abe" Lincoln knew so much about mechanism. His witnesses could reply promptly. He gained the suit and a reputation such that Mr. Lincoln was retained in every patent-right case brought into that court up to the time he was sent to Washington. He went to Chicago, St. Louis, Iowa, Ohio, Kentucky and Michigan to try patent-right cases, and the last year of his practice did little else.—Thomas Lewis' Recollections of Lincoln in Leslie's Weekly.

SUMNER'S LACK OF HUMOR.

Some Amusing Stories Are Told of His Literalness.

Carl Sumner was a man of great qualities and of small defects. His blemishes, which were easily discerned, were temperamental rather than moral. He had not the sort of imagination which enables a man to enter easily into the feelings of others, and this deficiency on his part sometimes resulted in unnecessary rudeness, says the Atlantic Monthly. Charles Sumner's appearance was seriously metamorphosed by a severe attack of typhoid fever which he suffered, I think, in 1842 or 1844. After his recovery he gained much in flesh and entirely lost that ungainliness of aspect which once led a friend to compare him to a geometrical line, "length without breadth or thickness." He now became a man of strikingly fine presence, his great height being offset by a corresponding fullness of figure. His countenance was strongly marked and very individual, the features not handsome in themselves, but the whole effect very pleasingly impressive. He had but little sense of humor, and was not at home in the small cut-and-thrust skirmishes of general society. He was made for serious issues and for great contests, which then lay, unguessed, before him. Of his literalness some amusing anecdotes have been told. At an official ball in Washington he remarked to a young lady who stood beside him: "We are fortunate in having these places for standing here; we shall see the first entrance of the new English and French ministers into Washington society!" The young girl replied, "I am glad to hear it. I like to see lions break the ice." Sumner was silent for a few minutes, but presently said: "Miss —, in the country where lions live there is no ice." I once invited Mr. Sumner to meet a distinguished guest at my house. He replied: "I do not know that I wish to meet your friend. I have outlived the interest in individuals." In my diary of the day I recorded the somewhat ungracious utterance with this comment: "God Almighty, by the latest accounts, had not got so far as this." Mr. Sumner was told of this in my presence, though not by me. He said at once: "What a strange sort of a book your diary must be! You ought to strike that out immediately."

"Orangeine" helped my neuralgia in five minutes," writes Mrs. A. R. West, Palatine, Ill.

Miners Are Unable to Agree.

Brazil, Ind., March 30.—The miners of this district met here Wednesday to discuss the operators' proposition made last Saturday afternoon to sign the scale, providing the miners would set their own props. No agreement was reached and unless the operators yield a strike is probable. A special effort will be made by the miners' organization to effect a settlement before the first of the month.

Endowment by Rockefeller.

Cleveland, O., March 30.—John D. Rockefeller has notified the trustees of Denison University at Granville, O., that if within the ensuing years they will raise \$150,000 he will present the institution with \$100,000, and members of the endowment committee of the university met here Wednesday to discuss plans for raising the funds. Denison University is one of the oldest in the state and was founded in 1831.

France Improves Defenses.

Marseilles, March 30.—The French military and naval authorities are displaying unusual activity. SUNK IN THE MISSISSIPPI.

Steamer Rowena Lee Goes Down Near Tyler, Mo.

SIXTY PERSONS DROWNED.

All on Board Except the Captain and One Mate Have Perished—Names of the Crew, as Far as Ascertained—Details Are Hard to Obtain.

Cairo, Ill., March 30.—The steamer Rowena Lee of the Lee line of Mississippi boats is reported to have sunk in seventy feet of water at Tyler, Mo., 125 miles below here, between 3 and 4 o'clock Wednesday afternoon. She is said to have broken in two and gone down with all on board except the captain, George Carvell, and one mate, John Crasty, who escaped. Sixty people are believed to be drowned.

The following is only a partial list of those who perished, as the complete passenger list and the names of the crew, outside of the officers, is not yet obtainable. The dead:

BANKS, EPHRAIM, pilot on the Lee.

BOOKER, I., first clerk on the Lee.

CALDER, ALBERT, engineer of the Lee.

FLANIGAN, PATRICK, second mate of the Lee.

HUMPHREY, S. C., general agent for the Chicago Mill and Lumber company of Cairo.

HUNN, THEODORE, barkeeper on the Lee.

KELLY, M. T., mail clerk on the Lee.

LEWIS, H. C., traveling freight agent for the Lee line.

LEWIS, SAMUEL, third clerk on the Lee.

MITCHELL, AUGUSTUS, second clerk on the Lee.

SMITH, "SID," pilot on the Lee.

STULL, FRANK, engineer of the Lee.

TODD, GEORGE W., steward of the Lee.

Most of the Rowena Lee's crew live in Memphis. The names of her passengers cannot be learned. The boat was the property of the Lees at Memphis. It is said she had over sixty people on board, including the deck hands, and about fifteen or twenty passengers.

The Lee left here at 5:30 o'clock Tuesday night for Memphis. She carried a heavy cargo of railroad iron.

The report from Tyler says the steamer had just backed out from the landing and headed down stream when a loud explosion was heard and the boat broke in two, both ends plunging downward and sinking from view instantly. All on board perished except the two officers mentioned.

No hope is entertained that anybody was saved except these two. The disaster came with such suddenness that officers, crew, and passengers were carried down at once, and life-saving measures were out of the question.

Total of Crew Was Forty-Five.

Memphis, Tenn., March 30.—The Rowena Lee was built at Jeffersonville, Ind., about five years ago, at a cost of \$75,000. She carried a deck crew of about thirty and a cabin crew of fifteen, in addition to the officers named. On account of the isolation of Tyler it is possible to get only meager details of the disaster.

BELIEVE ALGER IS OUT.

Secretary of War Is Now Said to Be a Mere Figurehead.

Washington, March 30.—It is the belief of well-posted authorities in Washington that Gen. Alger has given up the direction of affairs in the war department, and his absence in Cuba at this critical juncture gives plausibility to the report that he will not much longer be a factor in the cabinet.

The secretary is in Cuba on what is termed by courtesy "a tour of inspection," but those who adhere to the theory that he has been compelled by administration managers to practically relinquish everything but his title point to the fact that he is touring through Cuba, where there is no prospect of a fight, and that he left here at a time when the situation at Manila was the absorbing question.

"Entirely recovered from 'grip' in its severest form after taking 'Orangeine' powders."

Minor Fights Unchecked.

Washington, March 30.—The navy department has no confirmation of the press dispatches reporting the shelling of Malabon by the Monadnock on Sunday and of Las Pinas, to the south of Manila, Tuesday, nor of the landing of marines at Malabon. Admiral Dewey cabled the department about some routine matters relative to supplies for the marines, saying he could secure everything save cooking stoves, but he made no mention of the matters reported in the press dispatches.

Twenty-Seventh Body Found.

New York, March 30.—The twenty-seventh body was taken from the debris of the Windsor hotel at noon Wednesday. It is believed to be the body of a woman. The total dead now number thirty-eight, missing forty-five.

Woman's pains, so hard to bear, are quickly and safely relieved by "Orangeine."

French Fleet Sent to Toulon.

Nice, March 30.—The French fleet now at the naval station of Villefranche has received unexpected orders to leave for Toulon. The strenuous endeavor of the officers to keep secret the fact that any unusual orders have been received leads to the conjecture that something serious is in the wind.

ILLINOIS LEGISLATURE.

Senate Votes for Teaching of Agricultural Science in Schools.

Springfield, Ill., March 30.—Following is the gist of the routine doings in the legislature Wednesday:

The senate passed Putnam bill creating state board of opticians. Accepted house amendments to Lyon bill providing superintendent of soldiers' and sailors' orphans' home shall retain guardianship over inmates adopted into private families. Passed house bill appropriating \$1,000 for annual exhibit by State Poultry Association; also committee bill appropriating \$119,000 for Pontiac reformatory; also Templeton bill requiring teaching of elements of agricultural science in ungraded schools. Sent to third reading primary election bill applying to counties other than Cook. Reconsidered adverse vote and recalled to second reading for amendment Begole bill revising state game laws. Voted that adjournment next Friday shall be to following Wednesday because of Tuesday's election. Passed Baxter bill allowing fire insurance companies to apply for renewal of incorporation six years before expiration of charters instead of two.

The house passed without emergency clause senate Humphrey bill regarding proposed annexation of Austin to Chicago. By vote of 41 yeas to 73 nays killed Trautmann bill allowing mutual assessment companies to reincorporate and do business under the old line system. Concurred in senate amendment to Lyon house bill regarding soldiers' and sailors' orphans' home, giving orphans of soldiers in Spanish war same privileges as those of civil war. By vote of 115 to 8 passed Herron bill repealing law allowing warehousemen to deal in grain on their own account. Sent to appropriations committee majority and minority reports from special Lincoln monument committee. Passed Curtis Ohio centennial exposition bill. Listened to third reading of omnibus appropriation bill, carrying about \$3,100,000 annually, but took no action thereon. Sent to committee on judiciary senate bill revising medical practice act.

PLANS TO ANNEX CUBA.

President McKinley Said to Have Adopted a New Policy.

St. Louis, Mo., March 30.—A Washington dispatch to the Globe-Democrat says:

"The president comes back from Thomasville and Jekyll island strongly imbued with the feeling that it is best for Cuba and best for the United States that the island shall become part of this nation. That feeling will show itself in a policy which will make easy the annexation. No inconsistency, no bad faith is involved in this policy. The occupation of Cuba has about reached a parting of the ways.

"No formal announcement of this policy may be expected at present. Perhaps the president will not declare his view in words until the time comes to send his message to the new congress."

Thinks Sherman Will Live.

Washington, March 30.—Ex-Secretary Sherman, accompanied by his daughter, Mrs. McCallum, and Mr. Harry Wiborg of Cincinnati, arrived at Washington Wednesday on the steamer from Norfolk. He was in as good condition as had been hoped for, and expressed his pleasure at reaching home again. Dr. Magill of Duluth, Minn., was one of the party on the Paris when Mr. Sherman was taken sick and has attended him throughout his illness, and came to Washington with him. He expresses a confident belief in his patient's recovery.

Epidemic Crosses to Iowa.

Davenport, Iowa, March 30.—Cerebro-spinal meningitis, which is epidemic in several towns in Iowa, and has caused twelve deaths in Rock Island and Moline, Ill., seems to have gotten a foothold here, one death having resulted and two other cases having developed. The local authorities have appealed to the state board of health to adopt strict rules looking to a control of the disease, and will allow no public funerals of its victims.

General Flagler Is Dead.

Washington, March 30.—Word was received last night by the war department from Fort Monroe that Brig. Gen. Daniel M. Flagler, chief of ordnance, United States army, died at the Hygeia hotel there at 5 o'clock Wednesday afternoon. The message said that Gen. Flagler's remains would be brought to Washington on the steamer which will reach here Friday morning.

Guards the Tonga Islands.

Tonga Islands, March 23, Via Auckland, N. Z., March 30.—The British cruiser Tauranga arrived here on March 7 under sealed orders on a secret mission. It is surmised that her visit was the result of rumors of an intended German annexation, the cruiser aiming to secure an agreement that if any nation is to annex the Tonga islands it shall be England.

Spain Will Sell Cruisers.

London, March 30.—A dispatch from Madrid to the Central News says that the government has decided to sell at auction the auxiliary cruisers Rapido, Meteor, and Patriota, formerly the North German Lloyd steamers Normannia, Havel, and Columbia. These vessels were purchased during the late war, and never left the Spanish ports.

Claims in Morocco to Be Settled.

Tangier, March 30.—The sultan of Morocco has yielded to the pressure of the German government for compensation to the German merchants who were victims of the outrages at Casa Blanca, and the settlement of the German claims will shortly be made.

EAGAN BEFORE BEEF BOARD.

Commissary General Recalled—His Evidence Not Startling.

Washington, March 30.—The military court appointed to inquire into Gen. Miles' charges concerning the beef supplied to the army during the Spanish war had former Commissary-General Eagan before it Wednesday on recall.

Gen. Eagan's testimony was not startling. There was an apparent effort on the part of Maj. Lee, representing Gen. Miles, to show that Senator Hanna had sought to influence the contracts, but Gen. Eagan asserted that he did not know the senator and no explanation was made of the introduction of his name. Gen. Eagan made frequent references during the giving of his testimony to the numerous demands upon his time during the war, making this condition an explanation for not remembering details.

Maj. J. D. Black and Capt. F. H. Pomeroy, commissaries at Porto Rico, said that under the most favorable circumstances only 8,000 men in Porto Rico could have been given a refrigerated beef ration. The amount sent to the island was 500,000 pounds. The meat ration for a soldier is a pound and a half six days out of ten. The meat would have fed the 8,000 for over three months could refrigeration have preserved it.

As it was, of 21,000 pounds issued at Ponce, 7,000 was thrown away by Capt. Pomeroy before he attempted an issue.

The balance of the remaining 14,000 was buried at the camps. The bulk of the meat came back to the United States, the cargo of the Manila containing over 250,000 pounds, spoiling en route.

OF LOCAL INTEREST

Some People We Know and We Will Profit By Hearing About Them

This is a purely local event. It took place in Janesville. Not in Buffalo or New York. You are asked to investigate it. Ask to believe a citizen's word. To confirm a citizen's statement. Any article that is in doubt at home.

That obtains resident advocates, is more worthy of confidence. Than a far off foreign article. Testified to by unknown people.

Mrs. L. B. Canniff, of 107 Cornell street, says: "I doctored from time to time for the last eight or ten years for kidney complaint. I felt fairly well, but as I took medicines, but I felt I was getting worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervous chills, my finger nails turned purple and I never suffered so much in my life. The medicine I took seemed to act as a stimulant while I used it, and I finally recovered in a measure. During the last three years I suffered from attacks of headache, dizziness and backache. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the Janesville C. S. drug store and I can say they are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally. Doan's Kidney Pills for sale by all druggists. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitutes."

WINE OF CARDUI

HEALTHY OLD AGE.

LARUE, BENTON CO. ARK., Aug. 4.

I am 49 years old and have been suffering with Change of Life. I had hooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.

MRS. E. B. TOWNSEND.

Wine of Cardui

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.
